

HealthTrio MyMedicalHome™

HealthTrio MyMedicalHome™ solution was designed to provide the knowledge, tools and connectivity necessary to help the Patient Centered Medical Home (PCMH):

1. Automate preventive care and key chronic disease management
2. Improve quality, safety and efficiency
3. Eliminate barriers

HealthTrio MyMedicalHome solution allows you to build a strong foundation upon which the personal physician and their team of healthcare professionals can access and act upon secure meaningful information regarding the patient's health status. Our solution provides real-time clinical decision support data, patient engagement and population management capabilities necessary to optimize patient outcomes. Designed in conjunction with physicians and nurses, these tools are user-friendly, intuitive, and integrate the latest research in effective electronic health record design.

HealthTrio MyMedicalHome supports transitions of care by alerting the care team providers between care settings (primary to acute to long-term care) so appropriate outpatient management can be put into place to achieve better patient outcomes.

HealthTrio MyMedicalHome includes:

- A complete and secure patient-centric medical record for patient access
- Patient self management support
- Reminders, alerts and follow-ups necessary for patient engagement and medical home efficiency
- Complete information regarding the provider population as well as individual patients
- Population management
- A complete electronic health record that includes key vitals information
- Prioritization of data in a user-friendly, intuitive design
- Referral tracking
- Orders and notifications
- E-prescribing
- Clinical decision support
- Capabilities for cost analysis

In addition to **HealthTrio MyMedicalHome**, health plans can integrate **HealthTrio connect™**, which allows healthcare providers, members, employers and brokers to exchange healthcare data through a secure portal interface. By streamlining administrative and financial processes, health plans can decrease operational costs, improve efficiencies and increase revenue.

For further information on how your plan can experience these quantitative benefits, please contact HealthTrio at **877.571.1988** or visit **www.healthtrio.com**.
